

Overview of the Sega Saturn Graphic Tools

INTRODUCTION

The bulk of Saturn graphic tools available to-date are primarily Macintosh. For the status of PC and SGI software and tools by others, see the documents "PC_NEWS.pdf" and "SGI_NEWS.pdf" listed below. Currently there is only one PhotoShop plug-in for the PC on the disk, and there are no SGI tools on the disk, but SGI tools are available from those listed in "SGI_NEWS.pdf".

PDF INFORMATION FILES

Scattered throughout the GRAPHICS hierarchy of files are informational text files in the Adobe Acrobat file format (pdf). These explain the organization and contents of the folders at each level.

GRAPHICS.pdf JUNE96.DTS/GRAPHICS
Overview of the Sega Saturn Graphic Tools (this document)

PC_NEWS.pdf JUNE96.DTS/GRAPHICS/TOOL_PC
PC 3D SoftWare and Saturn Graphic Tools Status

NO_PSY_Q.pdf JUNE96.DTS/GRAPHICS/TOOL_PC
Psy-Q Saturn Graphic Tool Status

PLUGIN.pdf JUNE96.DTS/GRAPHICS/TOOL_PC/PS_PI_PC/ARCHIVE
Saturn File Converter Plug-In for PhotoShop PC

SGI_NEWS.pdf JUNE96.DTS/GRAPHICS/TOOL_SGI
SGI 3D SoftWare and Saturn Graphic Tools Status

MAC_NEWS.pdf JUNE96.DTS/GRAPHICS/TOOL_MAC
Overview of the Saturn Macintosh Tool Sets for CartDev & Graphics Box

PREDIST.pdf
JUNE96.DTS/GRAPHICS/TOOL_MAC/TOOLS_JUNE96/XTRAS/
PhotoShopPlug-Ins/Plug_In.DST
Saturn_PreDistort Filter Plug-In for PhotoShop Macintosh
(Stretches textures for use on triangles or other non-rectangular shapes)

READ ME'S, RELEASE NOTES, AND OTHER GRAPHICS DOCUMENTATION

In the file “**MAC_NEWS.pdf**” are the individual documentation files for the Macintosh tool sets. (now all in English)
